

Attention: To All Federal Members of Parliament

I am writing to you with great concern for the many pending bills the government intends to pass through Parliament in May 2024.

The **W.H.O. treaty, the Misinformation/Disinformation Bill & the Digital ID Bill** are the most concerning and are **ambiguous** to the Australian People.

If passed through parliament, thereafter that date, before that date, or any other time, without full disclosure to all Australians regarding the consequences of each bill they will infringe on the freedoms and rights of the Australian People.

Hence, unlawful and unconstitutional.

As an Australian Federal Member representing the Australian People we expect you to vote down these bills.

I respectfully remind you that your role as a Federal Member, or representative, requires you to express the WILL of all constituents, and only the WILL of all Australian constituents, on the floor of the Parliament.

THIS IS A MATTER OF PUBLIC CONCERN AND FOR PUBLIC RECORDING.
